

ANANT GOPAL SRIVASTAVA

Bangalore/Lucknow, India | +91 8303981821 | anantgopalsrivastava@gmail.com | [LinkedIn](#)

PROFESSIONAL SUMMARY

AI-curious business professional with hands-on experience applying artificial intelligence and data tools to real-world marketing and consumer research challenges. Demonstrated ability to design and execute AI-driven research studies, derive actionable insights from data, and communicate findings to diverse stakeholders. Actively building expertise in AI productivity tools, machine learning fundamentals, and enterprise AI applications. Seeking an AI-focused internship at IBM to contribute analytical rigour and a business-first perspective to cutting-edge technology initiatives.

EDUCATION

Bachelor of Business Administration — BBA	CGPA: 7.05
<i>ICFAI Business School (IBS), Bangalore, Karnataka, India 2024 – 2027</i>	
Higher Secondary Education — Commerce with Business Studies (ISC Board)	70%
<i>St. Joseph Group of Institutions, Lucknow, UP, India 2024</i>	
Secondary Education — Commerce (ICSE Board)	64%
<i>St. Joseph Group of Institutions, Lucknow, UP, India 2022</i>	

AI & RESEARCH PROJECTS

AI in Digital Marketing – Consumer Insights & Strategy Analysis 2026

Independent Research Study | [Published on LinkedIn](#)

- Designed and executed an end-to-end AI adoption research study with 125 survey responses, applying structured data collection and quantitative analysis methodologies
- Identified key adoption trends: 55% of users rated AI tools as highly effective; 46% indicated strong future adoption intent — insights directly relevant to IBM's enterprise AI go-to-market strategy
- Mapped AI applications across content creation, predictive analytics, and customer engagement ecosystems, benchmarking capabilities against industry use cases
- Derived actionable insights on AI benefits (hyper-personalisation, cost efficiency) and adoption barriers (data privacy, skill gaps) — aligning with IBM Watson and AI ethics frameworks

Consumer Behaviour Study — Gen Z Purchase Triggers in D2C Beauty & Personal Care 2026

Independent Research | [Published on LinkedIn](#)

- Applied behavioural data analysis techniques to segment Gen Z consumers by digital touchpoint and purchase trigger, producing a predictive model of intent signals
- Leveraged AI productivity tools to process qualitative survey data, identify clusters, and generate structured insight reports — reducing manual analysis time by ~40%
- Research methodology referenced NLP-adjacent techniques for sentiment categorisation across social media and review data

Brand Positioning Audit — Local vs. National QSR Chains 2026

Self-Initiated Strategic Study, Bangalore

- Conducted a data-driven audit of 5 QSR brands, using structured observational frameworks and competitive intelligence tools to map pricing, tone, and in-store experience
- Applied Keller's Brand Resonance Model augmented with AI-generated market benchmarking to identify positioning gaps and recommend experience-led differentiation strategies.

Customer Segmentation & Purchase Behaviour Analysis 2026

Academic Project | IBS Bangalore

- Analysed customer purchasing patterns using Python, Pandas, NumPy, Matplotlib, and Seaborn.
- Performed data cleaning, exploratory data analysis (EDA), and customer segmentation techniques.
- Identified consumer groups based on spending behaviour, income, and purchasing trends.
- Generated business insights to support targeted marketing and customer retention strategies.

FedEx Transportation Cost Optimization using Linear Programming

2026

Quantitative Business Methods Project | IBS Bangalore

- Developed a transportation cost optimization model for FedEx Corporation using Linear Programming and transportation modelling techniques.
- Analysed FedEx operational and financial data from FY2025–FY2026 reports to optimize shipment allocation across service categories and demand regions.
- Applied North-West Corner Method (NWCM) and MODI Method to evaluate optimal transportation cost solutions.
- Conducted sensitivity analysis on fuel costs, operating ratios, and shipment volumes to assess business impact and operational risk.

Global Development Analysis using Machine Learning

2026

Fundamentals of Machine Learning Project | Team Project

- Analysed 136K+ World Bank urban development records across 265 countries using Python, Pandas, Scikit-learn, Matplotlib, and Seaborn.
- Performed data preprocessing, feature scaling, exploratory data analysis (EDA), and correlation analysis on global urbanization indicators.
- Applied Principal Component Analysis (PCA) and K-Means Clustering to identify global urbanization patterns and country archetypes.
- Built machine learning models to classify urban development trends, achieving meaningful clustering insights with silhouette analysis.

Conceptualised and developing Jarvy – Under Development

- Conceptualised and developing Jarvy, a JARVIS-inspired AI assistant with voice interaction, memory, and automation features.

Personal Portfolio Website - (Self-Initiated)

- Built a fully responsive portfolio website with clean UI/UX to showcase projects and skills, optimised for recruiter engagement and deployed on modern hosting for reliability.

INTERNSHIP EXPERIENCE

Business Analyst Intern

June – July 2025

Prudent Corporate Advisory Services Ltd., Lucknow

- Conducted competitor research and market mapping across client verticals using AI-assisted data aggregation tools, accelerating research turnaround by 30%
- Prepared client-facing analytical documents incorporating data visualisation and structured business intelligence frameworks
- Gained foundational exposure to how AI tools can augment analyst workflows in financial advisory and strategic positioning contexts

LEADERSHIP & EXTRACURRICULARS

Head — Marketing Club

2025 – 2026

IBS Bangalore

- Introduced AI-powered campaign planning tools (ChatGPT, Canva AI, analytics dashboards) to the 12-member team, improving ideation speed and output quality across all club activities
- Spearheaded end-to-end event execution, driving 40%+ growth in student participation YoY through data-informed outreach and targeting strategies
- Orchestrated a landmark cross-club collaboration with the Entrepreneurship Cell — a product pitching event with 100+ participants and 3 external industry judges — showcasing ability to manage complex, multi-stakeholder initiatives

Head — AI & Marketing Club

2025– 2026

IBS Bangalore

- Led and managed the AI & Marketing Club, organizing AI-focused events, workshops, and marketing initiatives.
- Designed and hosted the “AI & Tech Quiz Arena,” a multi-round competition testing AI, logic, and problem-solving skills.
- Researched and presented emerging technologies including AI, VR, Quantum Computing, and cybersecurity/OSINT tools.

CERTIFICATIONS

Certification	Issuing Body	Year
AI Tools Certification	Be10X	2026
Build AI Certification	WsCube Tech	2025
NISM Certification	NISM	2025
Data Science Certification	Acmegrade	2024
Stock Market Certification	Great Learning	2022

CONTINUOUS LEARNING

Currently exploring: McKinsey Forward Program, Google Gen AI Academy APAC, AI courses, Prompt Engineering fundamentals, Python for Data Analysis

SKILLS

AI & Data Tools: AI Productivity Tools (ChatGPT, Gemini, Claude) · Google Analytics · Prompt Engineering (Fundamentals) · Data Science Basics · Survey Analytics · Basic Python Programming

IBM-Relevant: AI ethics awareness · Enterprise AI use cases · Watson AI ecosystem (self-study) · Business Intelligence · Market Research Methodologies

Business & Strategy: Consumer Behaviour Analysis · Competitive Intelligence · Brand Strategy · Go-to-Market Strategy · Campaign Planning · Content Strategy

Productivity: MS Office Suite · Canva · LinkedIn Campaign Manager · Google Workspace

Soft Skills: Leadership · Team Management · Public Speaking · Analytical Thinking · Stakeholder Communication · Structured Problem Solving

AREAS OF INTEREST

- Enterprise AI Applications · AI Ethics & Responsible AI · Natural Language Processing · AI in Business Strategy · Data-Driven Decision Making · Digital Transformation · Consumer Intelligence
